

HST-HBC Hammer Brinell Hardness Tester

Introduction

HST-HBC: Used to determine the Brinell hardness of ferrous, non-ferrous metals and tensile strength of steel products.

especially suitable to determine the Brinell hardness of large heavy parts on the spot. Small volume, convenient for carrying, easy operation Precision conforms to JJG 411.

Features

1. Small size, easy to carry, easy to operate.
2. Strong structure, durable, high test efficiency,
3. High precision reading microscope measurement system.

Technical Specification

Model	HST-HBC
Test range	<450HBS
Ball indenter dia.	Φ10mm
Dimension	Φ25*110mm
Weight	0.5kg

HST GROUP Co., LTD.
