

HST-SQ100 Metallographic Sample Cutting Machine

Application:

The HST-SQ100 metallographic sample manual cutting machine is suitable for cutting samples of various metal and non-metal materials in order to observe the metallographic and petrographic structures of the materials.

Features:

- This machine is equipped with a cooling system to take away the heat generated during cutting.
- The cutting machine uses a high-speed rotating thin-reinforced grinding wheel to cut the sample.
- The machine has the advantages of easy operation and easy maintenance, and is superior to similar domestic products.
- The cutting range and transmission power are also larger than similar domestic products, making it the best choice for sample cutting.

Parameters:

Model	HST-SQ100
Maximum cutting diameter	φ100mm
Spindle speed	2800 r/min
Cutting power	3kw
Input voltage	Three-phase 380V、50HZ
Grinding wheel specifications	300*2*32mm
Dimensions	800*680*631mm
Packing Size	930*756*792mm
Net weight	135kg
Gross weight	153kg

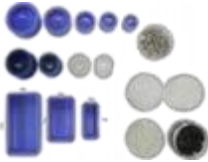

Water tank size	470*370*300mm
Water tank packing size	540*460*460mm
Water tank net weight	15kg
Water tank gross weight	25kg

Packing List:

Manual sample cutting machine	HST-SQ100	Set	1
Product Manual		Sheet	1
Product certification		Sheet	1
Packing List		Sheet	1
Wrench	30-32	Pc	1
Cutting disc	300mm	Pcs	2
Water inlet pipe		Pc	1
Water outlet pipe		Pc	1
Pipe clamp		Pcs	2
Water tank	Water pump is included	Set	1

Metallographic consumables

Focus on metallographic equipment and consumables research and development of professional brand

			
Diamond cutting piece	Resin cutting sheet	Metallographic cutting Coolant	CBN cutting piece
			
CM-7 Cold mounting material	Cold/hot mosaic powder	Die for cold Mounting	Mounting material
			
Diamond Grinding Disk	Metallographic sandpaper	MEGULAR	Diamond paste
			
Polishing powder	Polishing lubricant coolant	Metallographic polishing cloth	Polishing liquid
