

HST-HB3000B Brinell Hardness Tester

Product instruction

HST-HB3000B Brinell hardness tester can determine the Brinell hardness of ferrous metals, non-ferrous metals, unhardened steel, softer materials and bearing alloy materials; it has a wide range of applications and is suitable for precise measurement of parallel planes, and the measurement of curved surfaces is stable and reliable.

Main Specifications

Name	Specification
Measuring range	8-650HBW
Test force	187.5、250、500、750、1000、3000KGF
	1838.8、2415.8、7355.3、9807、14705、29421N
Distance from center of indenter to inner wall	120mm
Maximum height of specimen	230mm
Power supply	AC 220V
Dimensions	220*700*850mm
Main machine weight	210kg
