

HST-MoPao4T Metallographic Specimen Grinding and Polishing Machine

Application:

The HST-MoPao4T automatic grinding and polishing machine is a single table grinding and polishing machine. According to international standards and using international advanced technology, a new type of grinding and polishing equipment with single-point force is developed and manufactured. (No electronic proportional valve, manual pressure regulation)

Technical Parameters

Model	HST-MoPao4T
Grinding Disc Diameter	φ250mm (φ230mm, φ300mm can be customized)
Grinding and polishing disc speed	50-1000 r/min (stepless speed regulation) and 300/600/900 r/min (3-level fixed speed)
Grinding and polishing disc steering	adjustable forward and reverse selection
Grinding and polishing head speed	5-150 r/min (stepless speed regulation)
Number of prepared samples	4 pcs
Input air source	0.4-0.7Mpa
Loading range	0-0.7Mpa adjustable
Sample preparation time	0-3000S

Sample diameter	Factory standard $\varnothing 30\text{mm}$ (can be customized with diameters $\varnothing 22\text{-}\varnothing 45\text{mm}$)
Dimensions	550*760*640mm
net weight	60kg
Input power	1.1KW
power supply	Single phase 220V, 50HZ
